### ABOUT-ME

I am an enthusiastic and aspiring UI/UX designer and full-stack developer currently pursuing my undergraduate degree. With a strong passion for creating user-friendly and visually appealing interfaces, I have developed a foundational understanding of user research, and prototyping through my coursework and self-directed projects. Proficient with design tools such as Figma, Sketch and Android Studio, I am eager to bring my creativity and attention to detail to a professional setting. I am excited to gain practical experience, learn from industry professionals, and contribute to innovative design projects.
